Acquire More Mining Property

M. S. Nord & Company who recently acquired the Abramson and Welsh group of mining claims in the Central mining district near Hanover are planning to widen the scope of the work which has been done on the property since they took it over. For the past two months a force of six men has been engaged in development work and in taking out ore from this claim. This force will be increased before very long. The metal being copper and zinc.

According to the report of three mining engineers who have examined the property, there has been taken out and shipped, approximately \$20,000 worth of ore from the property. A number of smelting sheets are still available.

Mr. Nord and associates are now incorporating a company under the name of the Republic Mining & Milling Company, with a capital of 500,000 shares par value at \$1.00, fully paid and non-assessable. At least 300,000 shares will be placed in the treasury, the balance, or 200,000, will be issued as payment in full for the Abramson group consisting of four claims and for the option on the Welsh group of five claims. The company will have its charter in a few days. The attorneys for the company are Vaughn & Watson of this city.

Associated with Mr. Nord in this project are George E. Cox, E. M. E. L. Foulks and C. E. Melquist. The company will be incorporated under the laws of New Mexico, with its home office at Deming.

A small block of pre-cooperation stock is now being offered to the public at 25 cents per share. A large quantity of ore from said mines is at hand at the office of M. S. Nord & Company. The firm invites your inspection of same.

The following advance report submitted by George E. Cox, E. M. E. L. Foulks and C. E. Melquist, shows that the property has every indication of being a most valuable one:

Hanover, N. M., July 29, 1915

Mr. M. S. Nord
Deming, N. M.
Dear Sir:

Responsive to your request for a statement relative to the merits of the Abramson and Welsh mining properties situated in the Central mining district, Grant county, New Mexico, near the town of Hanover, I beg to submit the following:

The Abramson group through the lack of proper development does not show the presence of any appreciable amount of ore, though it is admirably situated for valuable mineral exploitation.

The claims lie adjacent to the Copper Queen belonging to the Empire Zinc Company, United States Copper Company, El Paso property, and the Brockman Penrose domain, all of which are prominently known among the valuable and meritorious mines of the locality. The writer is informed that the previous owners backed the required funds with which to develop its mineral resources, and refused on several occasions a large sum for its purchase.

The Welsh group is beyond question one of the best and most promising properties of the district and is responding to development in such a favorable and certain manner that no doubt remains as to its future possibilities.

Lying as it does in the midst, and completely surrounded by some of the nation's most fertile dividend-paying mines is the strongest factor in support of the possibilities of this group. The Empire Zinc Company, the strongest and most conservative syndicate in the United States, is mining on two sides on the same mineral bodies which traverse the Welsh property as proven by present development to a depth of 100 feet and the positive alignment of the mineral deposits within a stone's throw of the eastern boundary immense quantities of high grade ore is now being mined. Even more conclusive than the foregoing is the proximity of producing mines is the fact that Superintendent Becker has opened up commercial ore in several places on the property of identically the same character as that being block-d out and sent to the smelters daily by the Empire Zinc Company.

A considerable tonnage of fine milling ore has been block-d out in several places, and shipping grade of carbonate and siderite is being mined and placed upon the dump preparatory for market consignment.

You are certainly to be commended for your selection and acquisition of this splendid property, as I consider it a sure winner.

Very truly
(Signed) GEO. E. COX

Mrs. Fred Clawson and baby are visiting relatives in High Rolls.

Health is good in this vicinity.

Miss Ada Coleman has returned from a two weeks' visit in Silver City.

Professor Andrew McCurdy and wife are visiting at R. W. Yeargin's this week.

Miss Elizabeth Gist of Wellsburg, W. Va., is visiting Mrs. Dyer.

Mrs. LeRoy Hon is on a trip to Santa Rita visiting her son, Eeart, and wife.

R. L. Anderson has purchased the Bush Mercantile Company at Myndus and is doing a good business.

We are having lots of nice rain the last few weeks. Grass is coming on nicely and both the cattlemen and farmers wear a smile that won't come off.

Miss Ethel Elzey is visiting Mrs. Will Stewart in Deming.

The canning factory will start up in about fifteen or twenty days and will give employment to at least sixty persons.

I. K. Hollinger made a business trip to Las Cruces this week.

All crops look nice and you can see the farmer's smiles as he sees his crop maturing so nicely.

W. H. Lipsey is making extensive improvements on his place.

Tomatoes never looked better than now.

Freeman Butler has opened a general store in Myndus under the name of Myndus Mercantile Company, and is going a thriving business.

The H. H. Club is coming to the front. They contemplate building a nice club house here to meet their demands. This is wholly a women's organization and deserves the support from their many friends which they are receiving.

Mr. and Mrs. Butler have moved to Myndus and will make this their future home.

The C. W. Cook grocery is removing today to a new location in the Collins building on Silver avenue.

E. R. Gemoets has completed a very promising well on his place one half mile south of Myndus. The main flow was found at two hundred and forty feet, where ten feet of heavy water-bearing stratum was encountered. The water rose thirty-five feet above first water and stands very near the surface. An air lift will be installed in this well.

J. D. Hunter and Mrs. Hunter of Silver City were in Deming Thursday.

Dr. Gas and the Rev. Henry who have been holding an interesting revival meeting in Myndus, have postponed the meeting for the present, awaiting more favorable weather.

Bill LaPoint of the Las Cruces Citizen, entertained the editor of the Graphic in a royal way during the encampment. Bill is a booster of the first water and Las Cruces ought to help him in every possible way to build up the great Mesilla valley.

The following families have moved to Myndus in the last few days: Mr. and Mrs. R. L. Anderson, Mr. and Mrs. Howard and son Daniel, Mr. and Mrs. Freeman Butler and baby, and Mr. Holman and wife.

D. M. Pryor is in the city today from the NAN ranch.
